Hey Caroline,

When I saw this postcard at the museum naturally I thought of you. I love getting your postcards, and I know you do too. Hope everything is going well for you. This semester is kinda rough for me, but I learned I'm better at physics than I thought. Can't wait to see you again. Maybe I'll come see you over spring break. We'll see. Love you lots, and don't forget how cool you are. ☺

Love,

Sydney
