Dear Caroline

Brooklyn bridge or Williamsburg?

On the postcard, I mean—not sure, but both are bridges—paths from one place to another, symbols of change, transformation, growth... pretty fitting for Governor's school. 6-school did change me—the freedom, existing outside the parental abode for such a long time, but my ~~most~~ advice to you would be to form friendships and meet people. It's not easy to say why people connect and others don't and every friendship is different, but it's wonderful to have friends with similar interests and passions. That's what I loved about Gov. School. I'm still at ~~my~~ ^{my} ~~per~~ ^{per} Review—looking for jobs.

This weekend I traveled to Pushmuck to pick up my friend, Olivia, bike (she's in Istanbul, now). She gave me the ~~the~~ Key and I went on scavenger hunt to find the bicycle. It was a success! I love you, Branne
